

EXCELLENCE BY THE HOUR

SONGWRITING AND LITERACY

“I would recommend this workshop for its links to both National Curriculum English and Music...Learning was clearly sequenced with high quality resources”. Year 6 teacher.

Arts People songwriting and literacy workshops are an enjoyable way for pupils to build up their confidence and extend their understanding and knowledge of both music and literacy.

WHAT TO EXPECT

We can co-design our workshops with you or can run workshops already designed for different year groups on rhyming, similes and persuasive writing.

The workshops can run as a half-day or as a series of four, one hourly workshops (possibly after school).

The workshops will be interactive, differentiated and enjoyable.

At the end of the workshops, pupils will have a better understanding of the literacy focus, but they will also have been inspired by a successful singer-songwriter to appreciate music and write their own song.

For 2020-21, all the workshops are Covid guideline compliant, but are still great fun!

Prices are excellent value. We will quote for you based on your school's needs.

For more details and a quotation, please contact info@artspeople.co.uk, or phone Richard on **07885219520**.
